

Unit 2: things we need at work

1. Do you know the name of these technological gadgets?

- a. Smartphone
- b. Laptop
- c. Tablet
- d. Router
- e. Wireless earphones
- f. TV control
- g. Smartwatch

1. Match the picture with the correct name of each type of computer:

- a. Mainframe
- b. Laptop
- c. Desktop computer
- d. Smartphone
- e. Tablet
- f. Workstation

2. Complete the following table with appropriate information:

User	Type of computer	Use
Data analyst	Mainframe/Workstation	High computational power with large storage
Common user	Tablet PC	Can be used for many different things, starting from painting, studying or similar all the way to watching movies
Common user/Office worker	Desktop computer	Personal computing device designated to fit on a typical office desk
Video/Photo editor/Office worker with higher power demand	Workstation	Like the desktop computer but with more computational power and storage, not as much as the mainframe but enough for most resource-hungry desktop programs
Anybody	Smartphone	A mobile that can be used to make and receive phone calls, browse the internet and play music
Student	Laptop	Mainly meant for browsing the web, downloading basic programs and overall all things related to studying

1. **Work in pairs.** Can you think of an example of the devices described above?
 - a. Input device: Camera
 - b. Output device: Monitor
 - c. Storage device: SSD

2. Write down the names of the peripheral devices that you see in the following pictures.
 - a. Microphone
 - b. Keyboard
 - c. Drawing tablet
 - d. WebCam
 - e. Monitor
 - f. Printer
 - g. Headphones
 - h. usb drive
 - i. Speakers
 - j. Camera
 - k. Router

3. Now classify the devices shown in the photograph above using this chart:

Input devices	Output devices	Storage devices
Microphone Keyboard Drawing tablet WebCam Camera	Monitor Printer Headphones Speakers Router	Usb drive

4. **Work in pairs.** Can you name the different storage devices shown in the following picture?
 - a. Smartphone
 - b. Laptop
 - c. Usb drive
 - d. SSD
 - e. Sim card

5. Can you think of any other input or output devices? Make a list together with your partner. Then share it with your other classmates.

Input devices	Output devices
Scanner Light pen Barcode Reader Touchscreen Joystick	Projector Plotters Braille Display Haptic Feedback Device Digital Signage Display Touchscreens

6. Match the nouns on the right with the most suitable adjective:

Adjectives		Nouns
Ergonomic	—>	Keyboard
Comfortable	—>	Smartwatch
Wireless	—>	Headphones
Inkjet	—>	Printer
Updated	—>	Computer
Wired	—>	Mouse

7. Read the following definitions and write down the name of the principal device that they are referring to:

- A set of keys that let users enter and write text into computers or other electronic devices. **Keyboard**
- A device that receives audio output from another device, such as a computer. **Microphone**
- A piece of equipment that accepts text and graphic output from a computer and prints the information on paper. **Printer**
- A small device that controls the cursor or pointer on a computer screen. **Mouse**
- A gadget that is a portable data-storage device. **USB drive**

8. Now it's your turn. Based on the structure of the sentences in Exercise 7, write a definition for two different peripherals.

- Definition A:** A device that displays images, videos, and other visual information generated by a computer. **Monitor**
- Definition B:** A device that captures still images or videos and transfers them to a computer. **Webcam**

1. Look at this image. How many technological devices can you see?

Two monitors, a calculator, a mouse, a keyboard, a smartphone

2. **Word building.** Fill in each blank with a verb made from the nouns in parentheses.

- a. Those machines are used to print documents.
- b. This device will be useful if you need to scan a document.
- c. You can use this tool to point out different parts of your presentation.
- d. Most smartphones allow you to record audio.
- e. David can calculate almost anything with his new mobile phone.

3. Imagine you're an IT specialist, and you're making a list of the technological devices you need.

For my job as an IT specialist, I would at least need one monitor, preferably two or even three if possible; an ergonomic keyboard that doesn't make much sound; a mouse, wireless if possible; some headphones with a microphone, again, wireless if possible; and a webcam, at the very least.

Vocabulary
Camera - cámara
Capacity - capacidad
Comfortable - cómodo
Desktop computer - ordenador de escritorio
Ergonomic - ergonómico
Expensive - caro
External memory - memoria externa
Fast - rápido
Graphic tablet - tableta gráfica
Hard drive - disco duro
High definition - alta definición
Inkjet - inyección de tinta
Input device - dispositivo de entrada
Mainframe - mainframe
Memory - memoria
Microphone - micrófono
Operating - operacional
Output device - dispositivo de salida
powerful - potente
processor - procesador
RAM - RAM
Smartphone - teléfono inteligente
Speed - velocidad
Storage device - dispositivo de almacenamiento
System - sistema
Touchscreen - pantalla táctil
Unlimited - ilimitado
Updated - actualizado
Wired - cableado
Workstation - estación de trabajo

1. Read the following adjectives to describe a job and place them in the correct box:

Positive adjectives	Negative adjectives
Challenging Interesting Rewarding Permanent Part-time Outdoor Indoor Remote Skilled Well-paid Varied	Demanding Stressful Badly paid Repetitive Unusual Tedious Temporary Full-time On-site

2. **People at work.** Read the following adjectives that describe people at work and match the opposites:

Adjective	Opposite
productive	unproductive
efficient	inept
organised	disorganised
autonomous	dependent
passionate	unenthusiastic
incompetent	skilled
obedient	disobedient
creative	uncreative
punctual	unpunctual
loyal	disloyal
committed	disloyal
agile	slow
easy-going	serious
skilled	unskilled
hardworking	lazy
energetic	inactive
caring	uncaring
leader	follower
witty	dull

3. **Common jobs.** Match the jobs and the pictures below.

- a. Delivery person
- b. Worker
- c. Secretary
- d. Driver
- e. Engineer
- f. Manager

4. Write a brief description for each of the jobs listed above using the vocabulary learned in this unit:

- a. A secretary should be organized and responsible.
- b. A delivery person should be punctual and efficient.
- c. A worker should be hardworking and productive.
- d. A driver should be agile and skilled.
- e. An engineer should be serious and creative.
- f. A manager should be a leader and caring.

5. What kind of job do you wish to apply for after completing this course? Name the most important qualities for that job.

I don't specifically know what position I will be applying for when I finish this course, especially because I plan on studying more and not immediately applying, but when I eventually end up doing so, I would expect that the minimum qualities I would be asked for would be my knowledge of the technologies used, a high level of English, and some soft skills, as well as some volunteering for the job, as a way of showing that I actually really want the job.

6. Match the adjectives below with their definition:

- a. Committed - Someone dedicated to their job and completely loyal to the company.
- b. Punctual - Someone who is always on time.
- c. Ambitious - Someone who wants to achieve success, power, or wealth.
- d. Talented - Someone who has a natural ability or skill.
- e. Energetic - Someone who shows a lot of energy at work.

7. Now it's your turn! Define three more adjectives following the structure above.

- a. Responsible - Someone who can be trusted to do their job well and take care of important tasks.
- b. Creative - Someone who has original ideas and thinks in an imaginative way.
- c. Friendly - Someone who is kind and pleasant to others.

8. **Word building.** Fill in each blank with a noun made from the adjectives in parentheses.

- a. He's got a real talent. He can solve any sort of problem.
- b. Punctuality is one of his virtues. He has never arrived late.
- c. Tom always has so much energy. I have never seen him tired!
- d. Her ambition has always been to be a president of the company.
- e. Mary's commitment to her work is beyond question.
